#### Vanderburg Union Convention.

Civil war has been raging in our country for over one year. The enemies of the Union have ever manifested a united and devilish determination to accomplish its destruction. Its friends should be equally united and resolute in its defense. Our relatives and neighbors, are contending aginst rebels and traitors in the field. It is our province to contend with the secret enemies of the Constitution and sympathizers with rebellion at home. Every citizen, therefore, of Vanderburgh County, who is in favor of sustaining the Government in its struggle with treason, and opposed to any and all projects or parties calculated to encourage traitors to a continued resistance, are invited, without respect to former party associations or ties, to meet in County Convention at the

Court House on Saturday, June 14th, at 2 o'clock P. M. For the purpose of appointing delegates to

the Union Convention, to be held at Indianapolis on Wednesday the 170 

aremusat Bearecrows. The 8th of January secession sympathi. zers are doing what they can to give aid and comfort to the rebels, by misrepresenting the condition of the national finances. They have lied about the daily expenses of the Government, and have falsely and fraudulently magnified the national debt. Of course these efforts are appreciated by their rebel friends. Every traitor newspaper in the South copy the falsehoods, as an evidence that the Government cannot long continue the contest, and urge their people to bold out a little while longer, and success will crown their efforts; they quote them as an indication of Northern sympathy, which only lacks development, because of the tyrannical measures adobted by the Administration for its suppression. The only effect of these falsehoods is to encourage traitors in their work of destruction. and those who originate and circulate them know it. Voorbees & Co. imbrue their hands in the blood of neighbors whose lives are sacrificed by the prolongation of a contest which would cease but for the efforts

men can succeed in regaining power? It is a sufficient answer to the falsehoods contained in Voorhees' speech, and repeated. by the small suns that "darkly move" in the same sphere, to copy the statement of the Treasury Department that the "national debt, on the 24th of May, 1862, amounted to \$491,448,984. This includes the debt of over \$70,000,-000 bequeathed the present Administration by Mr. Buchanan, and contracted in a time of profound peace. There is but little doubt that a large portion of that sum went to swell the resources of the rebels in their efforts to overthrow the Government. A large proportion of the present debt was also contracted in the purchase of arms and munitions of war, to supply the places of those which Mr. Buchanan permitted to be stolen by the Southern conspirators; an act which has failed to elicit a single word of condemnation from those who are now raising such a hue and cry about govern-

mental expenses. Will the people look at this subject in another phase? During the Administration of Mr. Buchanan, notwithstanding the country was at peace and there was no prospect of war, its credit steadily depreciated until at last its best stocks were worth only eighty cents on the dollar, and dull of sale at that. Now, with an army of 500,-

a debt of \$500,000,000-our stocks are do not make investments regardless of the singular anomoly. There is but one honest perpetuation of the Government was detroyed. Mr. Lincoln's conduct has restored that confidence. While Buchanan governed tistics worthless .- Scientific American.

willing to support the Government with their means as with their blood. How insulting to men who have freely offered their sons upon the altar of their country to say that they will not be willing to be taxed for the support of the Government! How insulting to charge them with regarding the dollars above the lives of their relatives and that they will not be willing to be taxed for dollars above the lives of their relatives and

The Committee of Investigation, in the case of Michael Batzuer, Treasurer of Franklin county, are yet at work. From what we learn, the amount of defalcation discovered by the committee up to the present time is \$40,000, and the general opinion is that there are other dishonest acts, which will come to light if his case is properly attended to. The truth is, not much confidence was ever placed in this braggart by his best friends. Batzner is young in years, though old in crime, and a consummate scoundrel .- [ Exchange.

Batzner was one of those Franklin county Democrats who have been muc's exercised over what they are pleased to designate as the frauds committed under the present Administration. Stover, we presume, has been equally disgusted.

The dimensions of the recent battle near Richmond continue to loom up in horrid proportions. Our loss was first fixed at 2,000 in killed and wounded. Then it was raised to 3,000. This morning we are told it will be as high as 7,000. Seven thousand men killed and wounded, and Richmond not ours! From all the reports of the battle, the Federal forces barely held Cincinnati. Ber The Hon, John Wentworth is canvassing for the new Constitution. Persons should not look with distrust upon the new Saturday morning, having on board some Constitution on this account. For once in his life Wentworth is controlled by honest impulses. This exhibition of honesty is one step he is taking towards the Democrutic party. If he continues to revolutionize himself in this regard, he ought to be received into the party, on probation, when-ever he offers himself. - Cairo Gazette.

With honest men, Wentworth's support of the new Constitution is the best reason in the world why it should be voted down. Wentworth has always been a rabid abolitionist. Is the new Constitution an abolition affair, that he endorses it so heartily How is it, Mose?

HALP FARE TO INDIANAPOLIS .- By an advertisement in this morning's paper it will be seen that the Evanswille and Crawfordsville Railroad will carry delegates to the Union Convention at Indianapolis, on the 17th inst, at half fore. This liberal arrangement, we hope, will induce a large delegation to go from the Pocket. Let all. who possibly can, give one day to strengthening the hands of the loyal men of the Union.

Onto Stor Southers .- The Tycoon, which has been long employed in the service of the State of Chio as a Sanitary and Hospital Boat, arrived from Piusburg Landing on Saturday, having two hundred sick soldiers from Ohio regiments on board.
